DETAILED ACTION

Response to Amendment

1. Applicant's amendment filed 09/24/2009 has been entered. Currently claims 20-22, 24-26, 34, and 35 are pending and claims 23 and 27-33 are cancelled.

Allowable Subject Matter

2. Claims 20-22, 24-26, 34, and 35 are allowed.
3. The following is an examiner's statement of reasons for allowance:

The allowable subject matter lies in the positioning of the webs that interconnect the individual elements of each of the stamped films. These webs are placed such that when cathode and anode films are superimposed on one another, i.e. the individual elements are superimposed; the films are in such an arrangement that the webs are staggered and are not superimposable.

The closest prior art is US 4,528,255. The current claims differ from this prior art in two ways. First the arrays of the prior art have the cathode and anode in the same film, while the current claims have a cathode and an anode stacked on top of one another and not present in the same film. The second way is that the prior art teaches that the integral temporary links **15**, which are similar to applicants' webs are specifically taught to be in register (col. 3, lines 15-24). This is completely opposite of the currently

claimed invention, which teaches that the webs of a cathode and anode should not be in registry, but rather staggered.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."

Response to Arguments

4. Applicant's arguments, see Remarks, filed 09/24/2009, with respect to the objection under 35 USC 132(a), the rejection of claims 20-22, 24-26, 34, and 35 under 35 USC 112, first paragraph, the rejection of claims 24, 25, and 27-33 under 35 USC 112, second paragraph, and the rejection of claims under the various examples of prior art have been fully considered and are persuasive. The relevant objections/rejections have been withdrawn.

Conclusion

5. Any inquiry concerning this communication or earlier communications from the examiner should be directed to GERARD T. HIGGINS whose telephone number is (571)270-3467. The examiner can normally be reached on M-Th 10am-8pm est. (Friday off).
